EDUCATION

Haldia Institute of Technology - Haldia, West Bengal   2020-2024
Bachelor of Technology in Electronic and Communication   GPA - 8.3

Happy Valley School , Bhagalpur (CBSE)   2018-2020
Senior Secondary (Class XII) | Physics, chemistry, Mathematics

ST .Teresa's School (ICSE)   2017-2018
Secondary (Class X) | Computer Science

WORK EXPERIENCE

Technical Content Writer Intern - **Geeks For Geeks**   March 2023 - Present
- Wrote more then **20+** Article on Data Structure and Algorithm to helped **2000+ users** till date.
- Corrected and verified over **50+** algorithmic programming problems used in various online coding contests.

Web Development Intern – PHN Technology (Front-End)   April 2023 – June 2023
- Successfully delivering a fully functional and user-friendly front end for the college website, which resulted in positive feedback from the client and end-users.

PROGRAMMING ACHIEVEMENTS

- Qualified Google Code Jam 2022 With 71 points off 100 Certificate
- Secured Global Rank 76 (out of 20000 + Participants) Starters 50 Coding Contest. Certificate
- Secured India Rank 60 in Geeks for Geeks coding Contest. Certificate
- Secured Global Rank 562 (out of 25000 + Participants) Starters 84 Coding Contest.
- Official Active Bot developer At Discord. Post
- Solved more than 800+ problems on all platforms like Leetcode, GeeksforGeeks, Codeforces, CSES etc.

PROJECTS

Bhagalpuri Silk
- Designed and developed a full-stack MERN e-commerce application for Bhagalpuri Silk, incorporating key features such as register, login, cart, ordering, and payment gateway.
- Utilized HTML, CSS, React.Js, Node.Js, Express.Js, Mongo DB, and Stripe to create a seamless user experience and efficient backend operations.

Sangeet Music – Using JavaScript, Discord.Js, and APIs. Github
- Developed and deployed an advanced Discord bot that provides essential music player and moderation features.
- Deployed the bot to over 30 servers, serving a community of over 10,000 satisfied users.

Custom Chatbot – Using Deep Learning, PyTorch, Flask and JavaScript. Github
- Developed a custom chatbot using PyTorch and Deep Learning, trained on a dataset of user messages and intents.
- Integrated the chatbot into a Flask web application, with front-end interactivity implemented using JavaScript and AJAX.

SKILLS & INTERESTS

PROGRAMMING LANGUAGES
- Advanced : C, C++
- Intermediate : Python, Java

TECHNOLOGIES
- HTML | CSS | JavaScript | Mongo DB | React.js | Express.js | Node.js | Discord.js

Data Structure and Algorithms, Operating system, Oops, DBMS, SQL, Git.

CERTIFICATION AND TRAINING

- Foundations of Project Management.
- Goldman Sachs Engineering Virtual Program Certificate

OTHERS

- Public Speaking | Content Creator YouTube
